A NOTE BEFORE WE BEGIN

This brief records the creative scope agreed for your Signature Collection commission, together with any subsequent approved submissions or forms. Your individual quotation confirms the commission fee, garment cost, included artwork outputs, timetable and deposit before work begins.

If you change your mind or request additional items after the original brief has been agreed, this may require additional artwork, design time or production work and may therefore be subject to an additional charge. Any change to the original estimate will be discussed and agreed with you before the additional work is undertaken.
